

SGEU Up-in-Range

The following posting is in accordance with the clauses dealing with "In-Hiring Rate of Pay".

Permanent Full-time

INS002580 - Heating and Power Plant Engineer

Ministry: Executive Government>013 Saskbuilds and Procurement

Grade and Job: SGEU.05., TPP - SGEU

Salary Range: \$24.079-\$30.174

Rate Approved: \$29.25 per hour

Key Responsibilities of position:

You will assist in the operation of high pressure boilers and auxiliary equipment on a permanent full-time basis. Your responsibilities will include troubleshooting and performing maintenance and repairs on all heating, ventilation and air conditioning (HVAC) equipment on site. You must be able to safely and efficiently operate the boiler, air conditioning and all related equipment in the power plant and building and perform preventative maintenance as required. You will also be required to perform water tests from heating and cooling systems, analyze the results and dispense required chemicals, as well as maintain steam plant operations records and equipment logs and monitor the building environment to maintain client comfort and safety.

As the successful candidates, you must also be able to satisfy the physical requirements and demands of the job, including working with and lifting heavy equipment, tools and materials that weigh over 50 lbs. You will have knowledge of operating requirements and maintenance of a wide variety of building systems equipment such as heating, ventilation, and air conditioning systems and their components. You will have experience operating and maintaining high pressure boilers and auxiliary equipment, diagnosing problems, and repairing, troubleshooting or arranging for repair of equipment to restore operations.

To qualify for this position, you must possess a 4th Class Steam Engineers Certificate.

Qualifications of person Appointed:

- 3rd class certification
- 6 years of experience with high pressure equipment as well as heating and cooling systems, operating high pressure boilers, steam systems and turbines
- Experience diagnosing technical problems associated with repairs to determine the cause of the problem and provide a workable solution in a reasonable time frame
