

### **SGEU Up-in-Range**

The following posting is in accordance with the clauses dealing with "In-Hiring Rate of Pay".

Permanent Full-time

HEA001852 - Public Health Nurse Consultant

Ministry: Executive Government>032 Health

Grade and Job: SGEU.13., HWN - SGEU

Salary Range: \$55.936-\$67.953

Rate Approved: \$62.00

Key Responsibilities of position:

This position will play a key role in strengthening the province's immunization and child health programs while supporting the effective use of Panorama as a provincial public health information system. Key responsibilities include:

- Providing leadership in the planning, implementation, and evaluation of immunization and early childhood health initiatives.
- Supporting the development and review of public health policies, protocols, and evidence-informed practices related to maternal, child, adolescent health and immunizations.
- Offering consultation and coordination in the management and use of Panorama for immunization, inventory, and client record functions, while working collaboratively with public health stakeholders.
- Contributing to strategic planning and public policy development to improve population health outcomes.
- Representing the Ministry of Health on intersectoral and inter-agency committees.
- Supporting population health promotion and primary health care initiatives through a public health nursing lens.

The ideal candidate will bring:

- Extensive knowledge of public health nursing services, systems, and structures in Saskatchewan, with particular expertise in immunizations and child health.
- Experience working with Panorama, particularly the Immunization and Inventory modules.
- Strong understanding of public health and population health theories, as well as evidence-based approaches to health promotion and disease prevention.
- Skill in public policy analysis and development in the context of community health and health system improvement.
- Demonstrated ability to collaborate with multiple stakeholders across jurisdictions.

Qualifications required:

- Bachelor's degree in Nursing with course work in Public Health Nursing.
- Eligibility for registration with the College of Registered Nurses of Saskatchewan (CRNS).
- A minimum of three (3) years of experience working in public health nursing, preferably with immunization and child health programs.

You will have knowledge of:

- Saskatchewan public health programs, services, systems, and structures, with a comprehensive understanding of population health concepts and methodologies;
- Public policy development processes and evidence-informed approaches to health service planning and delivery;

- Immunization programs and child health services, including clinical and community-based practices;
- The Immunization and Inventory modules of the Panorama electronic health record, with experience supporting their use in practice or policy.

Qualifications of person Appointed:

- 29 years public health nursing experience
- Bachelor of Nursing
- Experience in field and as a supervisor, involved in research on improving immunization services
- Knowledge on all aspects of Panorama including the communicable disease module along with all immunization modules
