

SGEU Up-in-Range

The following posting is in accordance with the clauses dealing with "In-Hiring Rate of Pay".

Permanent Full-time

TRA001559 - Facility Maintenance Mechanic - Correctional Facility

Ministry: Executive Government>013 Saskbuilds and Procurement

Grade and Job: SGEU.07., TTP - SGEU

Salary Range: \$28.085-\$35.195

Rate Approved: \$30.000 per hour

Key Responsibilities of position:

As a member of a service-oriented team, you will provide general repairs and preventative maintenance on various buildings, systems, and equipment within the Correctional Centre. Under the general supervision of the Maintenance Supervisor, you will be responsible to:

- Perform scheduled preventative maintenance work orders and minor construction projects, as well as assisting in reactionary repairs to all major building systems;
- Keep records and logs of operation, repairs and materials and perform entry into a computerized maintenance system;
- Repair and maintain plumbing equipment including fixtures, valves, taps, lines and all associated devices;
- Repair and maintain heating, ventilation, refrigeration, and air conditioning equipment;
- Completing minor construction projects;
- Assist in water treatment/wastewater operation of the facility; and
- Ensure facilities and equipment are safe and meet operating standards.

You will:

- Be responsible, flexible, and adaptable to meet new challenges in a correctional centre environment;
- Be organized and able to work well under tight deadlines;
- Be thorough, conscientious, and attentive to detail to ensure quality work;
- Have knowledge of tools, equipment and regulations governing trades work associated with electrical, plumbing, refrigeration, carpentry, and water treatment/wastewater systems;
- Be able and willing to work in physically demanding conditions and perform physical labor, heavy lifting and climbing; and
- Have knowledge of theories, principles and practices related to the building trades including plumbing, mechanical, carpentry, control systems and HVAC.

To qualify for this position, you must possess a 5th Class Power Engineers Certificate or a Fireman's Boiler Operator Certificate and Refrigeration Operator Certificate. A Journeyman trade certificate and/or skid steer training would be considered an asset.

Qualifications of person Appointed:

- 11 years' experience working with and supervising maintenance on large machinery;
- Extensive supervisor experience essential for ensuring safe and efficient operations;
- Strong safety and OH&S background; and
- Experienced skid-steer operator.
