

SGEU Up-in-Range

The following posting is in accordance with the clauses dealing with "In-Hiring Rate of Pay".

Permanent Full-time

CON003000 - Senior Configuration Analyst

Ministry: Executive Government>013 Saskbuilds and Procurement

Grade and Job: SGEU.11., SCA - SGEU

Salary Range: \$44.534 - \$53.882

Rate Approved: \$53.236 per hour

Key Responsibilities of position:

As a Senior Configuration Analyst, you will analyze and evaluate requirements (client needs, new enhancements), recommend solutions, design system changes, modify reporting business areas, work closely with Information Technology Division (ITD) developers in system development, and test changes to ensure continued accurate financial processing. You will need exceptional analytical and problem-solving skills to evaluate and resolve complex systems issues. You will use your strong written and verbal communication skills to develop project plans, technical requirements, and procedure guides to communicate with both technical and non-technical clients. In addition, you must have excellent facilitation and presentation skills to conduct training and information-gathering sessions for large groups of people. Typically, the knowledge required for this position would be obtained through a degree in computer science or supply chain or procurement-related fields. Experience in Oracle financial/supply chain applications and/or related business processes would be considered an asset. You will have knowledge of: programming concepts relevant to a GUI application development environment; relational database concepts, theories and principles; the fundamentals of ORACLE integration; generally accepted principles and generally accepted audit standards; the fundamentals and processes of Purchasing/Requisitioning and Receiving; and processes pertaining to purchasing and requisitioning guidelines, delegations, agreement administration, receiving, period end and encumbrance reconciliation/analysis in a central environment.

Qualifications of person Appointed:

- EMBA Candidate (2025);
- Diploma in Data Analytics;
- Diploma in Business Analysis; and
- 10 years' related experience.
