

SGEU Up-in-Range

The following posting is in accordance with the clauses dealing with "In-Hiring Rate of Pay".

Permanent Full-time

TRA001534 - Security Projects Technician

Ministry: Executive Government>013 Saskbuilds and Procurement

Grade and Job: SGEU.08., POM - SGEU

Salary Range: \$30.329 - \$38.009

Rate Approved: \$36.957 per hour

Key Responsibilities of position:

The Security Projects Technician is instrumental in maintaining and enhancing the safety of government facilities. You'll install, configure, and service access control and intrusion alarm systems, ensuring they operate reliably and meet security standards. Your work will help protect public infrastructure and support the delivery of essential services across the province. As a Security Projects Technician, you will:

- Have strong technical skills in electronics, diagnostics, and system integration;
- Have familiarity with CAD, building code, technical documentation, and relevant software tools;
- Be able to work independently, manage multiple tasks, and adapt to changing priorities;
- Have the willingness and ability to travel frequently throughout the province;
- Install, maintain, and troubleshoot electronic security systems, including card access and intrusion alarms;
- Support the design and commissioning of new systems tailored to facility and tenant needs;
- Conduct preventative and demand maintenance to ensure system reliability;
- Collaborate with internal teams, contractors, and external stakeholders to ensure compliance with safety codes and standards;
- Be self-motivated, focused, and organized in order to manage a demanding and challenging workload and meet tight deadlines;
- Be thorough and attentive to detail to ensure quality work;
- Be flexible and adaptable in order to positively meet new challenges in a changing environment; and,
- Be approachable and flexible when dealing with contractors and the general public.

To qualify, you would typically have a diploma in Electronic Systems Engineering Technology or an equivalent combination of education and directly related experience in electronic security systems may also be considered. A hands-on technician with a strong background in electronic security systems would be considered for this position.

Qualifications of person Appointed:

- 13 years' experience;
- Alarm Technician Course; and,
- Electronics Technology Diploma
