Digital Citizen Experience, Ministry of SaskBuilds and Procurement

*This document outlines the Mobile App Store Standard as a component of the Digital Public Services Policy. These standards inform Government of Saskatchewan service design for public-facing digital services.*

## Background

The Government of Saskatchewan (GoS) provides citizens with mobile applications ('apps') available for smartphones and other mobile devices. GoS has a developer account in the Apple Store and Android Play Store. This provides a central location for all GoS apps to reside within.

## Standard Framework

Providing mobile apps within the GoS developer account increases user trust and confidence in the available applications.

## Government of Saskatchewan App Store

All mobile apps must be published through the Government of Saskatchewan Apple and Android app stores:

- Apple App Store – Government of Saskatchewan
- Google Play – Government of Saskatchewan

Digital Citizen Experience will work with your vendor to grant access to the stores.

## Government of Saskatchewan App Branding

All digital brand standards must be incorporated following the GoS [Visual Identity Guidelines](#) and approval by the Executive Council Brand.
